

NAME _____

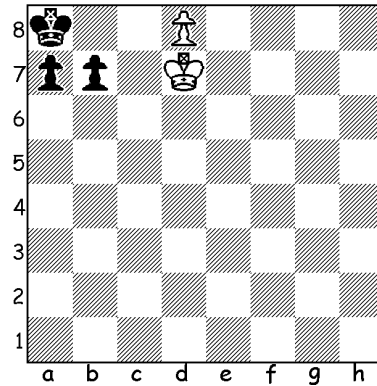

PAWN PROMOTION

A pawn can become very powerful because of its right to promotion. To get promoted, a pawn needs to reach the last rank of the chess board (8th for White and 1st for Black). Technically, it is very easy: you make a move and exchange your pawn to any piece but King or another pawn. That's why you need to take a good care of your pawns: one of them (or more) can become a Queen!

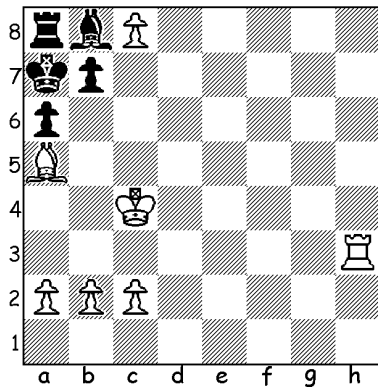

Can White get a promotion?

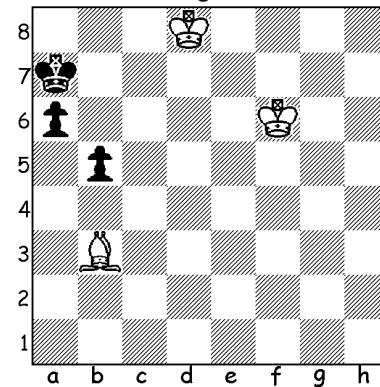

What piece(s) White needs for mate?

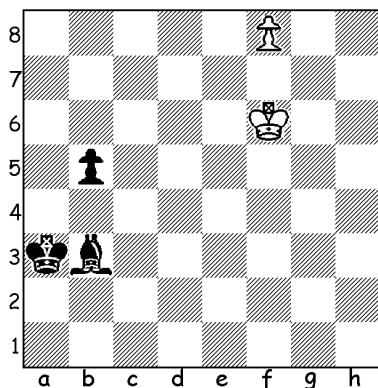

What piece White needs for mate?

White just promoted a pawn to a King.
Is this move legal? YES NO

Black to move. Is this position legal?

Black just promoted the King to a pawn.
Is it legal?
